

**PUBLIC NOTICE**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER  
Multiple Violations at CAPE GIRARDEAU PWS 4 - 2025**

**Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.**

The Cape Girardeau PWS 4 public water system (ID # MO4024100, Cape Girardeau Co.) has had multiple violations of monitoring requirements and drinking water standards from **April 2025** through **July 2025**. During this time period this system incurred two monitoring violations. Public notice is required for all of these violations, but has not been reported for any of them.

Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. This system failed to submit a routine sample for bacteriological testing in **April 2025** and **July 2025**, resulting in a major monitoring violation for each month.

During the months of monitoring violations, we cannot be sure of the quality of our drinking water. Bacteriologically-contaminated water can cause a variety of disease symptoms. It is important to routinely test drinking water to ensure the safety of those that consume it.

Public notice is required for all these violations. Performing public notice now resolves this issue. Please share this information with all the other people who drink this water, especially those who may not have direct access to this information. You can do this by posting this notice in a public place or distributing copies by hand or mail.

Provide explanation of cause of monitoring failure:

There was a change in operators AND NO ONE WAS  
AVAILABLE TO TAKE A SAMPLE DURING THESE MONTHS BUT  
HAS BEEN RESOLVED.

For further information contact

Dixie Davie at 573-243-9767 or PO Box 54 Gordonville, Mo  
(Name of system contact person) (Phone #) (Mailing address) 63752

or the Department's Public Drinking Water Branch at 573-526-6925  
or the Southeast Regional Office at 573-840-9750.
